

# Learner Qualities

Learner qualities or learning dispositions define the qualities of a good learner. The seven Rainbow Street Public School learner qualities, collaboratively developed by staff, students and parents, are:

**Confidence**

I can do this.

**Collaboration**

I share, contribute and listen when working with others.

**Critical and Creative Thinking**

I ask questions, make connections and look at things in different ways.

**Empathy**

I care about the feelings of others and show kindness and respect through my actions.

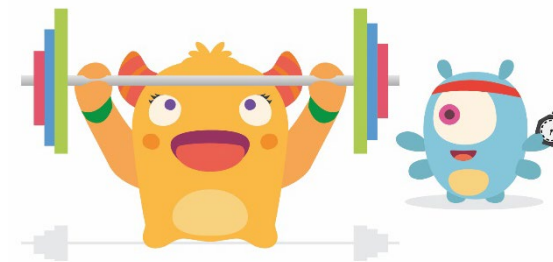

**Initiative**

I think about my next steps, take action and get things done.

**Motivation**

I strive to do my best.

**Perseverance**

I try my best and I never give up.
