Multicultural Perspectives Public Speaking - Stages 2 and 3

The Multicultural Perspectives Public Speaking Competition aims to heighten the awareness of multicultural issues among NSW primary school students. Students develop their interest in public speaking and improve their confidence and speech-writing skills.

Two students will be chosen to represent their class in their Stage final. Two representatives from this group will then be chosen to represent Rainbow Street Public School at the *Multicultural Perspectives Public Speaking Competition* in June.

Students write a prepared speech at home, following guidelines set out by their teacher in class. The prepared speeches need to demonstrate an understanding of multiculturalism, be well developed and interesting. Teachers will consider both the prepared speech and impromptu speeches when making their decision.

A note has been sent home this week outlining the requirements for the competition.

Lionel Bowen Writing Competition

Randwick City Library is looking to uncover writing talent in local school students, with entries to the Lionel Bowen Young Writers' Awards now open.

The competition is open to all young people currently enrolled in Years 3 to 12 (or equivalent) and entries are in two categories, either a short story or a poem. There are four age brackets in each category: Years 3 to 4, Years 5 to 6, Years 7 to 9 and Years 10 to 12.

Entries have the chance to win fantastic prizes including prepaid credit cards, vouchers and books supplied by Juvenilia Press. Award winners will have the added thrill of seeing their work in print, when Juvenilia Press publishes a book containing all the winning entries. The school that submits the most entries will also win a prize.

This year's theme is **"conserving our environment"**. Randwick City contains spectacular natural features – valuing and conserving our environment is a key priority for Randwick City Council. Council is proud to be a leader in environmental stewardship, and are continually implementing innovative strategies and projects to protect and enhance the precious natural environment.

See their website for more information and how to enter.
